Summer 2020 Paris Global Field Intensive (GFI)

Program Overview

The Preston Robert Tisch Institute for Global Sport is pleased to announce the offering of a **"Sports Business in Paris"** global field intensive program, **June 7 – June 18, 2020 in Paris, France.**

The program is open to current NYU undergraduate and graduate students. All students must **apply by the application deadline on March 6, 11:59pm.** For questions about the program, please contact tisch.institute@nyu.edu.

Course Offerings

Emerging Issues in Sports Business (TCSM1-UC3950), 3 credits (Undergraduate)

A review and analysis of important current trends and issues in sports through the perspectives of operations, marketing, finance, human resources, law, leadership, technology, and strategic management. Topics to be covered include: strategic thinking, sustainability, global perspectives, trend analysis, and practical business research. Students will work in teams analyzing the topic and develop a range of management strategies for a specific case or set of issues.

Independent Study (TCSB1-GC3900), 3 credits (Graduate)

Provides the opportunity to work with a faculty member on a well-defined specific topic via independent study. Approved topics should be extensions of existing courses previously taken or areas in which no courses are offered. Independent research is intended to extend the student's knowledge in an area in which his or her interest is more specialized than the norm.

Application Information

All students must apply by the **March 6, 11:59pm deadline.**

To access the Summer 2020 GFI application: [CLICK HERE](#).

Applications including all materials must be compiled into one (1) document. Partial or late submissions will not be accepted. Current resume, copy of current unofficial NYU transcript, essay (350 words maximum):

- Why are you interested in participating in the Tisch Institute study away program?
- Describe the impact this experience will have on your academic/professional goals.

Students will be notified of their acceptance into the program and will receive follow-up instructions on when to purchase flights and how to submit required documents.

Accepted students will be enrolled in a Summer 2020 GFI course **after** proof of purchase of the confirmed flight and/or a non-refundable deposit is received by the Tisch Institute, no later than **April 9, 2020**. It is the student's responsibility to purchase optional trip insurance and to review and understand the terms of the purchased trip insurance in the event of a trip cancellation.

All students must be in good academic standing to enroll in a Tisch Institute Global Field Intensive Program.

Medical Travel Consultation

Plan ahead for safe and healthy travels!

The staff at the [NYU Student Health Center Travel](#) Medicine department are your travel medicine and vaccine specialists. They're prepared to provide you with the latest health information and immunization services for your trip.

Travel Medicine Appointments

You should schedule your appointment 4-6 weeks in advance of your trip - you may need time to obtain certain vaccines. Lengthy trips require an appointment 8-12 weeks in advance of your trip.

Remember to bring records of prior immunizations, if possible. This will avoid unnecessary cost and duplicating vaccines you may have already received.

You can schedule an appointment online or by calling (212) 443-1188.

Fees

There is no charge for the Travel Medicine consultation for NYU students.

While travel vaccinations are typically not covered by health insurance, the NYU-sponsored Student Health Insurance plan (Wellfleet) covers the travel immunizations recommended by the CDC Advisory Committee on Immunization Practices (ACIP).

Before Your Appointment

Review the NYU Medication Notice and write down questions you have about the recommended and required vaccines.

If you're traveling to a location that has an NYU global site, visit nyu.edu/health/global for a list of recommended and required vaccines.

If you are traveling to a location that does not have an NYU global site, visit the CDC Travelers' Health page for recommended and required vaccines.
